

People building peace.

Mediators Beyond Borders International (MBBI) works to bring peacebuilding skills to communities around the globe.

MBBI Projects

People Building Peace.

An e-mail from a Ghanaian refugee camp, a conversation with Pittsburgh community leaders, or an appeal by a Rwandan Senator...

The diverse spectrum of conflicts we encounter has led us to: establish mediation centers, help reconcile conflicting ethnic communities, make alternative dispute resolution (ADR) more effective, and strengthen professional networks.

MBBI PROJECTS

▶ COLOMBIA

The Colombia team identifies initiatives aligned with MBBI's current objectives to develop the peacebuilding skills and practices of women, strengthen local trauma-informed peacebuilding practices, and work in partnership with local Rotary clubs in their service efforts to promote peace.

▶ SIERRA LEONE

MBBI's Sierra Leone team provides leadership training to community leaders. Responding to travel restrictions imposed following the Ebola crisis in 2014, the MBBI team conducted the training on-line. These local leaders continue to play a crucial role in mitigating epidemic-related conflicts.

▶ KENYA

The Kenya Initiative developed the "Warriors to Peace Guardian Framework" to generate systemic, positive peace throughout four pastoralist (nomadic herder) counties of Kenya.

▶ CLIMATE CHANGE POLICY

Since 2009, MBBI has been an Official Observer Organization of the United Nations Framework Convention on Climate Change (UNFCCC) talks and the Conference of the Parties (COP). MBBI's Climate Change team advocates for the inclusion of mediation processes as part of climate change policy.

▶ DIALOG PROCESS PROJECT

Cambodia, Czech Republic, Greece

The Dialog Process Project (DPP) responds to requests to train local mediators and facilitators to enable them to resolve community disputes, design and facilitate public dialogue, and function within their country as a resource for underserved communities in resolving disputes.
